

**Want sharper brain function?
Hold that thought.**

MOSS 
NUTRITION

Brain Select™ contains a unique blend of potent nutrients, suggested in human clinical studies to help support healthy brain and nerve cell function throughout the lifespan.*

Natural aging processes cause the human brain to produce less of the neurochemicals it needs to perform at peak potential. Cognitive functions such as memory & word recall, concentration, learning and the regulation of healthy mood all depend on key nutrients that nourish brain cells and promote the synthesis of compounds such as acetylcholine, “the learning neurotransmitter”.*

Brain Select™ is clinician-designed to help **optimize healthy brain function** with superior quality ingredients featuring:

- **Acetyl-L-Carnitine** - helps decrease oxidation & inflammation in the brain*
- **DMAE** - promotes synthesis of acetylcholine; supports learning & memory*
- **Glycerolphosphorylcholine & Phosphatidylserine** - phospholipids to nourish brain cells, boost acetylcholine levels & support healthy cognition*
- **Vinpocetine** - promotes healthy vascular blood flow to brain cells & tissues*
- **Huperzine A** - helps protect and maintain acetylcholine levels to enhance brain functioning, memory, focus & learning*

Supplement Facts		
Serving Size: 2 Capsules		
Servings Per Container: 30 and 60		
	Amount Per Serving	% DV
Vitamin B3 (as niacinamide)	400 mg	2000%
Vitamin B6 (as pyridoxal-5'-phosphate)	50 mg	2500%
Acetyl-L-Carnitine	425 mg	**
DMAE Bitartrate	100 mg	**
Glycerolphosphorylcholine (as AlphaPrime-GPC™)	75 mg	**
